

- **Increase your productivity**
- **Improve your production quality**
- **Grow your profit margins**

“The team at MIPAC is first class. Their attention to detail, thorough planning and process knowledge reduced the risks on a very complex project. MIPAC delivered a high quality result on schedule.”

Operational Excellence through superior Process Control

At MIPAC we give our customers peace of mind. We are results driven, customer focussed and people oriented. From concept to commissioning we provide solutions to measure, control and optimise major processing and production plants around the world.

SERVING GLOBAL LEADERS OF INDUSTRY

MIPAC is trusted by some of the most respected names in the business.

We serve major global companies in industries that have continuous process control needs such as minerals processing, metal production, pulp and paper, oil and gas. We understand the mission-critical nature of our client's operations and have delivered solutions for more than 100 projects around the world, including Australia, China, Fiji, Germany, India, Indonesia, Kazakhstan, Malaysia, Mexico, New Caledonia, Peru, Thailand, South Africa and Zambia.

Commitment to Quality

MIPAC is ISO 9001:2000 certified and is committed to meeting the highest quality standards for our customers and the industries we serve.

Talent and Know-How

We pride ourselves on attracting and keeping the best combination of experience and capability in the industry. We constantly invest in our people and they are committed to providing intelligent, practical solutions that create exceptional results for you.

PROCESS CONTROL & AUTOMATION EXPERTS

With an impressive depth of knowledge and a wealth of in-house experience, MIPAC is exceptionally well positioned to provide the services and technology to optimise throughput & production quality – minimising downtime and maximising profits.

We have an expert team of process control, instrumentation and electrical engineers with practical operations experience who deliver solutions for design, control, advanced control and process improvement.

We are vendor independent and cover all facets of your operations from field instrumentation to turnkey control system selection and implementation; efficiency improvements with high-end advanced control tools and strategies for ongoing process improvement and optimisation services.

Whether it be large capital projects or ongoing operational improvements, MIPAC delivers award-winning results for our customers.

Xstrata Technology's business success depends on us being flexible, responsive and delivering the highest quality outcomes. That's why we choose to work with MIPAC.

Joe Pease, General Manager,
Xstrata Technology

//
The compliment that best describes MIPAC's approach to their involvement in the Mufulira Smelter Upgrade Project is that MIPAC have conducted themselves with a professionalism and integrity that would suggest that the Mufulira Smelter is their asset.

John Ross, Metallurgical Manager,
Smelter & Concentrator, Mopani
Copper Mines
